1. Applicant's election with traverse of Group I in Paper No. 5 is acknowledged. The traversal is on the ground(s) that the method of Group II is not a separate invention. This is not found persuasive because the invention of Group I could be used in a different method than that of Group II for the reasons given in the restriction requirement.

The requirement is still deemed proper and is therefore made FINAL.

- 2. Claims 12-16 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

 Applicant timely traversed the restriction (election) requirement in Paper No. 5.
- Claims 4-7 are objected to because of the following informalities: in claim 4, line 2, "contact" should be deleted. In claim 5, line 2, "a" and "each" are conflicting; line 3, "an" should be -- the --. In claim 6, line 3, -- the -- should be inserted after "between"; line 4, "a" should be -- the --. In claim 7, line 4, -- to -- should be inserted after "secured". Appropriate correction is required.
- 4. Claims 20-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of these claims recites the housing or portion thereof, which conflicts with the preamble which limits the claims to the contact per se.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Application/Control Number: 10/004,979

Art Unit: 2833

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 6. Claims 1-3 and 6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Wright '712 or Verhoeven.
- 7. Claims 7 and 8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wright '712.
- 8. Claim 10 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Verhoeven.
- 9. Claims 17-19, 24-26 and 27-31 are allowed
- 10. Claims 4, 5, 9 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 11. Claims 20-23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
- 12. The following is an examiner's statement of reasons for allowance: none of the prior art of record discloses or teaches the claimed slot(s) in combination with the rest of the claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 13. The other references cited on Form 892 disclose similar cutting contacts.
